# BEDROCK SERIES

**BEDROCK TRADITIONAL** - The Traditional featuring NEW GlowFire™ Log Technology, The first-of-its-kind on the open face fireplace integrates the burn tubes inside the actual logs, giving the look and feel of the log on fire. GlowFire™ Logs are specifically designed to bring more fuel efficiencies to the gas log market by consuming less fuel while still creating a fuller more robust

flame compared to a traditional gas log set. The ceramic log mixture radiates more heat out into the room while also creating less flame infringement drastically reducing sooting. \*Must add lava rock or 1/2" reflective glass and GlowFire™ Logs.

TRADITIONAL	MODEL#	48"	60"	72"			
<b>NEW</b> BEDROCK TRADITIONAL DROP-IN BURNER NATURAL GAS FEATURING GLOWFIRE LOGS (EN)	LDBT##L-EN	\$2005	\$2205	\$2495

<b>NEW</b> WESTERN DRIFTWOOD BEDROCK TRADITIONAL GLOWFIRE LOGS	LDBT-DW##	\$1026	\$1389	\$1489			

\*Must add logs. Includes Deck, Base, S.I.T. Controls w/Remote, LED Lights w/Remote, Rating Plate, Installation Manual, Flex line and fittings.

**BEDROCK CONTEMPORARY LINEAR DROP-IN BURNER** - Drop-in Burner is specifically designed to fit any trough style masonry fireplace or contemporary designed wood burning fireplace. Operated with an SIT Proflame II control system including convenient flame modulation on a sleek hand held remote. The Bedrock Burner is also the FIRST vented Drop-in

burner system featuring IC controlled LED lighting that operates with a remote or easy to use App. \*Must add lava rock or 1/2 reflective glass. Cannonballs and Driftwood logs optional.

# LAVA SERIES

FEATURING  
NEW  
GLOWFIRE™  
LOG  
TECHNOLOGY

GlowFire™ Log AWOC 24" Lava Burner

**LAVA VENTED FRONT VIEW BURNER** - This one-of-a-kind masterpiece gives the look and the feel of the log on fire; because it is! Each log is individually orificed and ported allowing the fuel to flow out of the log presenting the most realistic gas log set on the market. The revolutionary technology present ultra-realistic style and design to the traditional gas log set. GlowFire™ Log Technology also allows for increased efficiency by using less BTU's and creating a fuller more robust flame effect. The ceramic refractory logs radiate more heat out into the room compared to a traditional concrete gas log set. Available in 4 convenient sizes, gas specific construction, and available with either on/off or variable flame electronic controls. The Lava burner series and GlowFire™ Log Technology has created a platform for endless log style and future configuration development.
